This month's meeting will be starting at 7:00 PM to stuff envelopes. It should only take about a half hour to complete this. Please show up early to help. The regular meeting will start at 7:30.

Elections are going to be held in May. With more and more people retiring (so much extra time) we should have no problem filling all possible officers' positions.

Start getting sponsors for the car show. It will be here before you know it.

If your car or truck is equipped with tire pressure sensors and you have a problem with a tire going soft, DON'T add fix-a-flat to the tire. I had a car show up last week, what a mess inside the tire. Not just from the fix-a-flat but the liquid deteriorated the sensor itself. It was like black chips of gloss paint covering the inside of the tire and rim from what was left of the sensor. Now it cost to the customer a new sensor, cleaning the mess up and programming the new sensor to the car.
